## LIFETIME DATA: MODELS IN RELIABILITY AND SURVIVAL ANALYSIS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Statistical models and methods for lifetime and other time-to-event data are widely used in many fields, including medicine, the environmental sciences, actuarial science, engineering, economics, management, and the social sciences. For example, closely related statistical methods have been applied to the study of the incubation period of diseases such as AIDS, the remission time of cancers, life tables, the time-to-failure of engineering systems, employment duration, and the length of marriages. This volume contains...
