Today only, get this Amazing Amazon book for this incredibly discounted price! While there are already solid educational psychology laws that govern and explain the process of learning in humans, there are researchers who still want to push on into the realms of hyper learning. Traditional methods of teaching and learning are effective up to this day. However, the advancements in society and technology deem it necessary that the new generation of learners keep up. There are many approaches to speed up the learning process. This will depend upon the background of the one who is aiming towards it. Psychologists, teachers, neurologists, and even child development experts have different techniques to share when it comes to boosting up the rate of learning within individuals. However, there...
