By Rajmohan Joshi

2006. Hardcover. Book Condition: New. 271 The recent advances in the field of biotechnology have brought into focus several ethical and safety issues. The inventions in the field of genetic engineering and related fields of molecular biology will affect not only ourselves but the plants, microorganisms, animals and the entire environment and the way we practice agriculture, medicine and food processing. The present book discusses the biosafety and bioethical issues the modern society confronts. Topics such as biotech development, impact of biotechnology on biosafety, biotech products and ethical issues, governance of biosafety, environmentally responsible use of biotechnology, etc., are describe in detail. This book is destined to become an essential reading for students, teachers and professionals in all fields of life sciences. About...
