SM, 2015. soft. Book Condition: New. At SM we know that education stands for development. 'Savia' means 'sap' in Spanish, and, just like plant sap, education nourishes, develops and generates life, and it is in constant renovation. Education is the new sap that fuels the future. This is Savia: a global project designed for all educational stages underpinned by a solid model based on values education where everything revolves around the pupil and aims to improve their results by focusing on different learning rhythms and styles. The project emerges from our mission to service and help teachers, providing them with the ideal resources to perform their everyday tasks. Savia reflects our commitment to education through the flexible introduction of new methodologies and technologies that can efficiently improve the quality of education. These are Savia's educational roots: Everything revolves around the pupil: Pupils are the genuine focus of this educational process. Each person perceives reality in a different, unique way. Savia provides the tools to introduce pupils to each topic smoothly, motivating them and respecting their pace and their individual learning style. This ensures effective results. Support for the teacher: We have created Savia as a team effort, working with teachers to create a common project. With them in mind, Savia integrates practical and effective resources that make their work easier in the classroom. In addition, the collaboration between SM and the teachers does not end when the book reaches the classroom. Thanks to a network of pedagogical advisors, teachers can access direct support at their school at any given moment during the school year. This permanent exchange with teachers will also help us constantly improve our materials. Commitment to education: Savia manifests the trust we place in the power of education to better society. Based on both methodological innovation and value...
